TROOPS AT THE POLLS.

ATTORNEY GENERAL TAFT'S INSTRUCTION TO MARSHALS.

Voters Passing to the Polls under Fixed Bayonets---A Federal Officer Saved from Disgrace.

WASHINGTON, May 27.—T. J. Mackey, circuit judge in South Carolina, testified before the Wallace Committee today that he was in affiliation with the Republican party until 1876, when he left it; was present at the election for State officers, Presidential Electors and Congressmen in Chester, S. C., in 1876, and was called on to interpose his official authority to check interference by the military and deputy marshals at the polls; several deputy marshals declared their purpose to carry the election for the Republicans, and exhibited a circular purporting to be signed by Attorney General Taft and addressed to the United States Marshal to disregard any process of the State courts. At two o'clock the chief deputy marshal, at the head of a band of colored men, assaulted voters at Carmel, tearing Hayes and Hampton tickets from their hands; several who refused to surrender their tickets were knocked down; subsequently saw the military (nineteen men of the 18th infantry) march into the court house yard, forming in two lines; voters were required to pass to the polls under fixed bayonets; on complaint being made to witness that voters were interfered with by the military, he issued a warrant for the arrest of Lieutenant Hinton, who commanded the detachment; the sheriff made verbal report that Hinton stated he had been summoned by the chief deputy marshal to bring his troops to the polls (that there was no breaches of the peace except such as were committed by the deputy marshals who had taken ballots from voters), and further that Hinton declared he was informed that violence was imminent at the polls, and that there had already been a breach of the peace, and asked to be saved from the disgrace of arrest, promising that he would remove his troops to the rear of the court house. Witness said this having been done, he instructed the sheriff to take no further action.

Railroad Disaster.

CUMBERLAND, Md., May 28.—At 1 o'clock this morning the eastward bound express on the Pittsburg division of the Baltimore & Ohio Railroad, three miles west of the confluence with the Pennsylvania, ran into a rock that had fell on the track, and engineer Benjamin Pritchard, residing at Connellsville, and an unknown tramp were instantly killed, and fireman Flaherty and another tramp seriously injured. The passengers were uninjured. The engine was wrecked. Pritchard died with his hand on the air brake.

Washington Items.

WASHINGTON, May 28.—The Senate Committee on Privileges and Elections have decided to go on with the Spofford-Kellogg case without delay, and ordered that subpœnas be issued for the number of witness desired by Spofford.

The veto was not sent in to-day.

The English Turf.

LONDON, May 28.—The race for the Derby Stakes was won by Lord Norrey's brown colt Sir Bevys; John Trotter's chesnut colt, Palmbearer, second, and Lord Roseberry's bay colt Visconti third. Twenty-three ran.

English Failures.

LONDON, May 28.—John & Robert Fenton, cotton spinners, of Rochdale, have failed. Libilities £50,000. Mathew Deckie, mill owner, Stockport, has also failed. Liabilities £145,000.

Adjournment of Parliament.

LONDON, May 28.—Parliament adjourned for the Whitsuntide Holidays, and will meet again June 9th.

Foster Nominated for Gov. of Ohio.

CINCINNATI, May 28.—The Republican State Convention nominated Chas. Foster for Governor on the first ballot.

The Gold Cases.

Richmond Daily Whig, 26th.

The history of the suits against William Smith and others is familiar to most of our readers. On the 2d of April, 1865, the city of Richmond was evacuated by the Confederate Government, and it became the imperative duty of the State Government to remove itself to a place of safety. The State had no money which it could control save some $21,000 in the Bank of the Commonwealth in *gold*. Upon the advisement of the Auditor of Public Accounts that he could place this sum to the order of the Governor, as part of the civil and military contingent fund, the Governor (William Smith) disbursed some $12,000 of it to members of the Legislature and officers of Government; and having provided transportation for the archives of Government to Lynchburg, about 1 o'clock he, with an aid-de-camp and a servant, on horses, left the State capital for Lynchburg, to which place the Public Guard and the corps of Cadets were also ordered to report.

Of the gold so obtained, the Governor reserved $5,000 for his personal expenses and such expenses as might become necessary for the support of the Public Guard and the preservation of the peace. To recover this gold from the Governor, personally, the United States brought this suit, and the result after much annoyance, was reached on Saturday by a verdict for the defendant. We understand that all proceedings against the other defendants will be stayed and the suits dismissed.

Its Famous, But its all Right.

Blue Ridge Blade.

There have been telegrams, editorial correspondence and all manner of notices given the "Mud Cut." We suppose it is, next to Asheville, the best advertised spot in North Carolina, and may be some folks are growing tired of hearing it, but we will for the first time venture to remark that it is all right, and that those who have feared it would prove a serious barrier to the running of trains over the mountains may dismiss their fears, or hopes, as the case may be, and as to danger, the line is absolutely safe, except for those feminine gentlemen who are easily scared to death.

The Fitz John Porter Case.

Washington Post.

It is understood that the President has decided not to approve the findings of the recent board of inquiry in the Fitz John Porter case, but will refer it for examination and revision to General Dunn, Judge Advocate General of the army. Persons who have examined the evidence submitted to the board of inquiry assert that the verdict is not in accordance with the evidence. The President's purpose is understood to be to bring out this fact if it exists. It is further stated by the opponents of General Porter that a large mass of evidence which was excluded by the board would, if admitted, have materially changed the aspect of the case. Until the case has been thoroughly reviewed, and the recommendations of the Judge Advocate General received, the President will take no action in the matter. Several members who composed the original dismissing court-martial in General Porter's case, have taken exception to the recent board of inquiry that acquitted General Porter, and regard that result as a reflection upon them. It is also intimated in army circles that this action of the President will end in a reopening of the case.

BULGARIA'S NEW RULER.

Prince Batsenburg Outlines his Prospective Governmental Policy.

Darmstadt Corr. Cologne Gazette.

I have had the honor of being received by the future ruler of Bulgaria. In the politest and most amicable manner Prince Battenburg—for so we must still for the present call him—excused himself for not having been able to grant my request for an interview on the first day of his arrival in Darmstadt owing to the extraordinary claims made upon his time.

"Your Highness," I said to the Prince, after I had congratulated him upon his election, "for more than a year past I have felt pretty well convinced that you, and none other, would be called to occupy the throne of Bulgaria. I doubt not that you yourself have long since been perfectly clear in your own mind upon whom the choice of the Bulgarians would fall."

"There," replied the Prince, "you are very greatly in error. In the first place I have never canvassed for the Bulgarian crown, and secondly, up to the last moment I was greatly in doubt as to whether the choice would fall upon me, and I was especially surprised to find that I had been elected unanimously."

"I believe I may assume that Your Highness intends to accept the government of Bulgaria only on the conditions laid down in the treaty of Berlin?"

"Inasmuch as I can ascend the Bulgarian throne only with the assent of the Powers, it appears to me a matter of course that I must accept the peace agreed upon by the Powers fully and without reservation. I likewise consider it as imperative, in the interest of Bulgaria itself, to employ all our strength upon its internal consolidation."

I called the Prince's attention to the internal affairs of Bulgaria, and expressed my view, founded on my experience of the country and its inhabitants during the war, that Bulgaria could not possibly be governed by Bulgarian officials only, inasmuch as suitable persons were almost entirely wanting.

"I know," said the Prince, "that this view has constantly been put forward in the Cologne Gazette, I do not conceal from myself the fact that the question is a very difficult one, but I have not yet made up my mind myself on this point, and cannot give you any information upon it. Only when I am on the spot shall I be able to enter more particularly into the matter. It is necessary first to make one's self acquainted with the state of affairs as they shall appear in time of peace, whereas I, as well as you, know the country only as it was in war."

End of the Moody Meetings.

Baltimore Sun.

Mr. Moody on Sunday last held his farewell meetings and took leave of those who had been "fellow-workers" in the noticeable series of religious services held under his direction during the past seven months in this city. The meetings on Sunday were at the Penitentiary, where Mr. Moody has labored faithfully and constantly ever since he came to town, at the Maryland Institute and at the Mount Vernon Church. No one could have been present at the Penitentiary meeting without being impressed with Mr. Moody's loyalty to and earnestness in his work. It was evident, too, that these qualities of his had won the confidence and moved the hearts of even the most hardened convicts, between whom and Mr. Moody a relation of friendship has sprung up which has made them more than usually sympathetic under his ministrations. They responded with ardor to his exhortations to them to reform, and when he was bidding them farewell and beseeching them to stand firm in their good resolutions the big tears which ran down his cheeks brought tears to all their eyes likewise, and the entire audience was visibly and powerfully affected. There is abundant evidence that Mr. Moody has done much good among the convicts and throughout the community at large. The impression made by his zeal, earnestness and tact is deep and emphatic, and it is sincerely hoped will be durable. At any rate the recollection of Mr. Moody's meetings will long be dwelt upon in the minds of those who attended them.

A Scrap of History.

Charleston News and Courier.

The use of the seal of the Confederate States as the design for one of the plates of the Confederate monument at Magnolia has elicited some information regarding it from a correspondent. The seal was made in England, and received by the government only a short time before the close of the war, having been only used upon a few documents previous to the withdrawal of the Cabinet and government officers from Richmond. It was not destroyed or thrown into the Savannah River, as has been generally believed, but was preserved and is now in the possession of a Confederate soldier.

Another Slide in Mud Cut

Blue Ridge Blade.

This famous cut through a mountain above Henry's is giving the railroad some more trouble. The wet weather caused another slide in it last Thursday night the 15th—hence no train from the west on Friday. If our subscribers at Mull Grove, Tuttle's X Roads, Collettsville and Patterson failed to receive the Blade of last week this will account for it.

Worthy of Patronage.

Meridian (Texas) Herald.

The Raleigh Daily NEWS, an old established paper, published at Raleigh, North Carolina, comes daily to our sanctum, and to our North Carolina friends we would recommend it as a paper worthy of their patronage.

It Would be Impolitic.

Washington Post.

It is understood that John Sherman believes it would be impolitic, under any circumstances, for the Republican party to nominate a Presidential candidate for a third term.

A Suggestion to Mr. Sherman.

Philadelphia Times.

If John Sherman will cast his eye around a little he will see several men quite as willing to run for President as he is. It is one of the happy arrangements of things in this country that the stock of Presidential candidates never runs out.

Spoken From Experience.

Baltimore Gazette.

The United States Senate is never as inoffensive and harmless as when it is assembled on a well-conducted race course.

REVIVING SEA ISLANDS.

EFFECT OF THE LESSONS TAUGHT BY STERN NECESSITY.

Self-Reliance and Hard Work Beginning to Tell at Last---Cheerful Prognostications.

Charleston News and Courier.

The short time recently spent amidst the everglades and savannas of our coast, only tended to renew five-fold the conviction your correspondent has ever entertained concerning the future of our sea islands. On every side are signs of a new life, renewed energies and of a perseverance that will in time overcome all difficulties. Stout hearts have put willing hands to the plow and they will, by zeal and energy, reap the rich harvest that nature always bestows on willing laborers.

The last few years, with their many and unprecedented misfortunes, have at last forced into the heart of the planter a feeling of self-reliance, which he has always needed. Born in the lap of luxury, the planter has ever entertained feelings of infinite trust and charity, never alive to the sharp practices of his fellow man, so much so that casting aside all trouble, he has always put implicit reliance in the overseer of the slaves, and far be it from me to say if the trust has been misplaced. Everywhere the feeling is becoming deep-rooted, that the only road out of their troubles is to make their plantations as far as possible self-supporting; a fact that is clearly apparent even to a casual observer, inasmuch as 50 per cent of the acreage under cultivation this year is in provisions, showing that they have at last overcome the foolish idea that provisions can be bought for less than they raise them, and think that one bushel raised is worth two that are bought, being on the spot, and giving a feeling of independence and confidence he could not otherwise have.

Gradually the idle lands and waste places are being fenced in, and cattle, once plentiful, are to be seen wandering in numbers over their fields, and the old, familiar bleating of the sheep as they graze brings to the mind something of the past, a remembrancer of the homes and hearts that can never be forgotten.

Another great blessing that the planting of provisions will eventually bestow on the planter is that a decrease in acreage of cotton will prevent the market from becoming glutted, and do away, to a great extent, with the indifference, amounting almost to contempt, with which the buyer looks on the fruit of the planter's labor, and, in time, make them, as in the past, applicants, not dictators. Why ship ten thousand bags of cotton when one-third has to be turned into provisions, thereby cheapening the other six? a question that is being pondered, and, action, will bear its fruit in time.

STATE NEWS.

Burke.

Blue Ridge Blade.

There is a difference of opinion as to the future price of corn in this market. Some think it so scarce that it will go higher, while others say it is now at the top—then wheat will soon come in, and afterward there will be less demand for corn. The small farmers are generally short, but there are a good many large lots, amounting to several thousand bushels, near town yet to be sold. We do not think it likely to fall in price, because of the general scarcity in this region, but we doubt if it goes much higher.

We hear a rumor that the summer schedule will soon go into effect over the W. N. C. R. R. As Morganton has no eating house at the depot, we vote for eating at Hickory, which has two Hotels that cannot be beaten in this State, or any other for that matter.

Catawba.

Newton Enterprise.

There is a plan "all aboard" for cleaning out Catawba river so steamboats—yes, just think of it—will run to the town of Catawba. When the scream of the locomotive and steam-boat shall reverberate over hills and dales, then we can exclaim, that the "good time" has come when we can point with patriotic pride to this grand Switzerland.

Scarcely any fruit, and in consequence thereof we are using a little water in our "funeral promoter" to cause it to extend beyond the ragged edge of despair.

Kleptomania still exists among some of our people. Mr. Jacob Setzer lost some of his bacon in consequence of the disease, but we all know that Radicalism is in the ascendency.

Wheat is pretty good. Sheriff Yount has the best field of wheat "that the oldest inhabitant ever saw."

More people are engaged in "hunting gold" now on a small scale, than ever before in this country.

Cabarrus.

Concord Register.

The oat crops throughout the county (Cabarrus) is improving. Colonel Means gave us a strawberry last Saturday that had nine perfect forms of berries in its make up. It weighed one ounce. Cotton sold for thirteen cents this week.

Forsythe.

Winston Leader.

We trust the party or parties who took our new shears out of our sanctum, without our permission, will return them. We can tell them where to get a pair just like them. But if they intend to keep them we hope they will pinch their fingers every time they use them, and make bunions on their hands as large as cocoanuts. We do indeed! The Burlington Hawkeye has an article headed "Shot as a Robber." If that paper will only shoot the fellow that robbed us of our shears, then we'll have the satisfaction of knowing he was "shot as a robber." [We had begun to wonder how the Leader man managed to get his paper out on time, when the following item turned up: "Smith, the loquacious Winston auctioneer, imbued with a spirit of liberality, and understanding our wants, has presented us with a pair of office shears, for which the entire establishment is profoundly thankful. Trust they may never get sharp enough to cut our acquaintance."]

The 24th of June will be duly celebrated by Winston Masonic Lodge. J. W. Reid, Esq., one of the finest young orators in the State will deliver the Masonic address. The sister lodges in this and surrounding counties are respectfully invited to participate on that day.

William Vogler has an Irish potato that is a wonderful freak of nature. The potato is of ordinary size, of the Early Rose variety, and upon cutting it open to plant it was found to contain eight or nine small, well developed potatoes on the inside. He had it on exhibition at his jewelry store and it excited much curiosity. Last year he planted one peck and gathered five bushels. They are very prolific, and this fact is verified by one potato containing eight others.

The subject of railroads is a matter claiming the attention of our people now. Two or three petitions have been placed before our town commissioners asking a subscription to various routes. It seems to us that the C. F. & Y. V. R. R. ought to start from this place. It would be more practical and our people are willing to aid in its construction. Then let the Salem and, Winston and Mooresville Road be extended to Danville via Winston. This appears to be the most feasible plan. Then we will have a competing line. The amounts in freight saved annually would almost pay for the road.

Mecklenburg.

Charlotte Observer, 28th.

The rapid sale of refunding certificates in Charlotte shows that there is plenty of money here awaiting investment, provided the opportunity is given.

A fishing party of about a dozen went out yesterday and on their return reported as the result of the day's sport about hundred fish and sixteen squirrels.

The following explains itself: "We, the citizens of Charlotte, respectfully suggest to your honorable body the propriety of purchasing a hearse for the use of the city. We don't ask for a fine one, but we want a plain, substantial hearse for the use of the poor as well as the rich, without being compelled to pay to the livery stable a tax of $10 for a decent conveyance of our bodies to the grave yard."

Mr. John Wolfe, one of the oldest and most respected citizens of the county, died at his home in Sharon township night before last, at 11 o'clock. He was in his eighty-sixth year, and until recently had scarcely been sick a day in his life, but almost to the day of his death was as active and walked as erect as a man of forty. He was a good and substantial citizen, modest and retiring in his manner, but faithful and honorable in every position.

The excavations at Paw Creek, on the Air-Line Railroad, for the purpose of getting dirt to fill in the trestle at that point, have resulted in the discovery of still other bones and relics of Indians. At last accounts eighteen skeletons, or the decomposed remains of this number, had been found, besides many more beads and a few other relics. Many persons have visited the spot to see the relics, and they are much sought after, especially the beads, which are in a state of perfect preservation.

A little son of Mr. H. D. Stowe, one of the justices of the Inferior Court, ran away from his father's house in Steel Creek township yesterday, and took the train for Atlanta, at Paw Creek trestle. The boy is under twelve years old, and considerable uneasiness is felt about him by his parents. They were telegraphing about him last night, to various points along the road, but at last accounts had not heard anything of him.

Dr. Asbury left the city yesterday morning to attend the tobacco fair in Lynchburg, Va., where he proposes to exhibit to the tobacco growers of the Old Dominion the practical utility of his invention for drying tobacco. He took with him a model of the invention, and in addition to the advantages he will be able to illustrate by this he will have the testimonials of parties in Danville who have used it the past year. It is attracting widespread attention and will no doubt soon come to be universally used, bringing a handsome revenue to the inventor and at the same time conferring a lasting benefit on tobacco growers.

New Hanover.

Wilmington Review, 27th.

The fish market is poorly supplied on account of the easterly winds.

Upwards of $4,000 worth of $10 certificates were sold at the post office yesterday.

Mr. Angel is getting up a telephonic exchange for this city. Already twenty-three instruments in this city have been engaged and in all probability more will be before the day is past. The telephonic exchange is a fixed fact.

After many delays and embarrassments the first section of the Sectional Dry Dock was successfully launched at about 3 o'clock this afternoon. This section is 70 feet long by 35 feet wide and 7½ feet deep and draws but two feet of water. The tanks are 26 feet high. The dock when completed will embrace four sections, and there are three yet to be launched. It is at Messrs. J. R. Blossom & Evans' yard, in the northern part of the city.

The revenue cutter Colfax took down the river this morning quite a party, among whom were Lieutenant Governor Robinson, Speaker Moring, of the House of Representatives, A. J. Galloway, Esq., of Goldsboro, the President of the Produce Exchange, President of the Board of Trade, Mayor Fishblate, Henry Nutt, Esq., Chairman of the Committee on River and Harbor Improvements, Custom House officials, vice consuls of Great Britain, Germany, Norway and Sweden, besides other prominent citizens. The party will make an examination of the improvements now being made in the bar and harbor and will probably visit the fortifications and Smithville before they return.

Robeson.

Robesonian.

Mrs. C. Von Glahn of this town, sent us last Friday the finest cabbage we have seen this year. It measured thirty inches in diameter. She has a very fine garden.

Mr. H. F. Pitman, who by the way is one of the very best farmers in this county, has sent us a stalk of cotton which measures eighteen inches in length.

Mr. W. A. Alford, near Ashpole church, has a collard growing in his garden that measures four feet seven inches in diameter and twelve feet five inches in circumference. Trot out your big collards.

Sheriff W. E. Thompson placed upon our table last week a corn silk of this year's growth. It was raised on his lot, Robeson is still ahead, both in corn and cotton.

As was predicted, the weather settled after the change o' the moon, but to that time we had rain for ten days in succession. We hear a great deal of complaint of cotton dying from the effects of the late rains. Cotton may be a king at maturity, but it is extremely weak and powerless in infancy.

Our item last week headed who can "beet" it, has brought Rev. A. R. Pitman, of Grays Creek, Cumberland county, to the front, who says: We had a fine mess of Irish potatoes on the 9th inst., and ever since; beets since the tenth from six to nine inches in circumference; young cucumbers, early corn tasseling and silking; beans ready to eat; cabbage heading. He says corn and cotton are looking well.

Color Blindness.

At the annual meeting of the Pennsylvania Medical Society, at Chester, recently, Dr. P. D. Keyser, surgeon of the Willis Hospital, Philadelphia, made a report on color blindness, showing as the result of an examination of train men on roads converging in Philadelphia that 3½ per cent. mistook one color for another (and therefore unsafe and unreliable), and 8½ per cent. who, though able to distinguish colors, were unable to tell the shades of colors, thus making 12 per cent. of those examined not quick in distinguishing colors and shades.

Pretty Girls for Sale at a Church Fair---A Miserly Beau Who Lost His Girl.

Rocky Mountain News.

It has grown into a fashionable custom of late to have a mock auction sale of the prettiest girls at church festivals. It tends to increase the resources of the church, and at the same time very clearly demonstrates in which way the affections of youth are bent. For it is reasonable to suppose that no ambitious young man will permit his sweetheart to be knocked down to a rival until he has expended his last cent in the effort to become the fortunate purchaser.

Acting upon this idea a fashionable church in Denver is preparing for a festival, in which the auction business is to form a prominent feature. It has put the young ladies in quite a flutter of excitement, and unhappily at this stage of the novelty—for, however common in the East, it is a novelty here—has come very near wrecking the future happiness of two estimable young creatures. The facts in the case are these: A young gentleman who confesses to an amiable weakness for one of the young ladies who is to be disposed of on the occasion referred to, called on his dulcinea a few evenings since, and very naturally the subject of the festival came up.

"I'm to be sold, Charley—did you know it?" exclaimed the enchantress.

"No! are you, though? I suppose I shall have to buy you."

"Of course. But how much do you reckon I well sell for?"

This was a naive inquiry, but it led to a moment of brief but sagacious speculation. If he had any rival the girl was likely to go high; if he didn't have any it would appear as if he was investing in an exceedingly cheap article.

"I don't know." The words were long drawn out, and his face was grave. "I suppose a dollar or two!"

If he had reflected a moment longer he never would have made this observation. It was born, however, of a sense of economy, and he had no idea of what it would lead to. But as the word fell from his lips he looked at his inamorata and caught the flash of indignant blue eyes, which made his heart sink.

"One or two dollars, indeed! I'll sell for fifty at the very lowest."

"I can't buy you, then."

"Sir!" and the lady's face was rigid with amazement.

"That is—I mean to say—confound it, Maria, I can't spare that much money," and the poor fellow looked appealingly at the divinity which was about to shape the end of his purse. But the disaster had come. The young lady rose from her seat like a queen, and with the cruel remark that a gentleman who thought so much of $50 was not a suitable person to encourage as a lover, sailed majestically from the room.

And now that young man's soul is convulsed with anguish, and his remarks upon church festivals are fearful to contemplate.

Asa Packer's Will.

The will of the late Asa Packer was admitted to probate in Philadelphia Monday. Besides the provisions heretofore published he bequeaths to his wife, Sarah M. Packer, whatever she wishes out of his estate, and all other provisions of the will are subordinate to this one. After numerous bequests to relatives he leaves to the divinity school of the Protestant Episcopal Church in Philadelphia $35,000; Jefferson Medical College, Philadelphia, $5,000; Muhlenberg College, of Allentown, Pa., $20,000; to the rector, church wardens and vestry of Saint Mark's Church, Mauch Chunk, $30,000; to Washington and Lee College, Lexington, Va., $4,000, and releasing a $1,000 bond of the college now held by him.

He directs also that the income of $1,500,000 shall be paid to the trustees of Lehigh University, in South Bethlehem, for its support and maintenance $50,000 to be paid the first year, the sum to be increased $5,000 per year until the annual amount shall equal the whole income; also that the income of a principal sum of $500,000 be paid for the erection of a library building on the college ground. To St. Luke's Episcopal Hospital, at Bethlehem, Pa., he gives the income of $300,000, on condition that sick or disabled employees of the Lehigh Valley railroad be boarded and attended free of charge. The trustees under the will are to terminate twenty-one years after the death of the last survivor of his three children. In case there should be no descendant of said children, two-thirds of the estate in the hands of the trustees is to be divided among certain nephews and nieces, the remaining third to Lehigh University and St. Luke's Hospital, at Bethlehem. A codicil directs that stock of the Lehigh Valley Railroad Company at its par or nominal value, be substituted for the amounts named in the will in dollars; this not to apply, however, to any bequests to his wife, daughter or sons, or to any bequests below $10,000. He also directs that the money heretofore paid the account of Lehigh University and other institutions be deducted from the principal sums bequeathed to the trustees of the university by the will.

Over Niagara Falls.

At Niagara Falls, Sunday afternoon, visitors were horrified to see a man in a skiff in the rapids above the falls. He was rowing for all he was worth, but suddenly his oar flew out of the row locks, his head went down, and he lay at length in the bottom of his boat. The boat then turned its prow down stream and began to descend the rapids of the American falls, its pace growing more and more swift, until finally it struck a rock about two inches from the surface and stopped, and began slowly to twist and turn in the eddying current. A moment later the boat struck another rock, parted in twain, and the body of the man was flung headlong into the eddying maelstrom, sucked under for a moment, and then tossed to the surface, just above the bridge which leads to Goat Island. He threw his arms wildly into the air, and those who were on the bridge saw for an instant a white and haggard face set in the agony of despair; then he was again drawn below the surface and did not reappear. The victim was "Pi" Walker, a noted river guide, who had been on a spree.

A Gobbling Game.

The shares of the two elevated railroads of New York city have proved in this brief time to be such profitable property that the larger stockholders have become dissatisfied with themselves at their short-sightedness in not "gobbling up" the whole of the stock when they had a chance. To make good this neglect, they have hit upon an expedient which promises nearly as rich results. A small number of men, who control the stock in both companies, have met together and organized, under an old charter, granted some time ago for railroad building and operating purposes to the Manhattan company. This last-named corporation has leased both the Metropolitan and New York Elevated roads for 999 years, agreeing to pay the stockholders of these two companies ten per cent. per annum upon their investments, and also guaranteeing some other slight concessions. But to those in the Manhattan company the prize is a rich one, for, as competition will now be at an end, they have the city at their mercy. It is the facility with which grasping combinations of this kind are formed which makes a regulatory constitution, like that of California, seem, at times, an almost necessary evil.

A FEW BRIEF REMARKS.

We can hardly credit the statement of the Cincinnati Commercial "Ohio is fenced in." It may be, however, that the rest of the country is just fenced out.

The Czar has been rendered so desperate by the Nihilists that he has given his assent to the shooting of women accused of belonging to that society. He might as reasonably hope to quench fire with oil as to drown this movement in blood.

It is only a trifle of $600,000 a year that the British guarantees to Yakoob Khan. Compared with the usual pay and perquisites of useless potentates of the old world this is not much. And compared with the $50,000 which Mr. Hayes is permitted fraudulently to draw it seems about the fair thing.

Of William Lloyd Garrison's surviving children, William Lloyd is in the wood business in Boston; Wendell P. is connected with the New York Nation; Frank is with the Houghton publishing house and the daughter is the wife of Henry Villard, a well known railroad manager.

Republican economy has brought the great State of Pennsylvania to the verge of bankruptcy. It has robbed the school fund of $1,707,049.74. And yet we are always hearing that the Radical party is the only reliable friend and supporter of free schools.

If the Ohio Republicans would only insist upon taking General Sherman for Governor, Grant could be made General of the Army, and thus leave a clear field for Secretary Sherman. There ought to be genius enough in the Sherman family to arrange this.

The rapid sale of four per cent. certificates has resulted in a temporary contraction of the currency to a very considerable amount. During last week the banks of New York city lost $5,866,000 in legal tenders. Their surplus reserve was reduced over $5,000,000.

The manufacture of ice has at last been reduced to a science. The city of Atlanta, Ga., has three factories in operation, and another just ready to start which will make fifty tons of ice a day, and the price has been reduced to a cent a pound delivered in small quantities, and as low as fifty cents per hundred at wholesale.

The California Constitutional Election Reviewed.

General John F. Miller, a leading Californian and member of the late convention talks thus of the recent vote: More than half the votes cast for the new constitution came from men who have no sympathy with the Socialistic movement, nor with what is called Kearneyism, but who are strongly opposed to anything of the sort. A greater part of the farmers voted for the new constitution, and they, as a class, are as conservative as any part of our people. We may expect that the supreme effort of the Socialists will be made in the September election for members of the Legislature and other State offices, but they cannot hope to obtain the votes of those who voted for the new constitution for their candidates. The two old parties had nothing to do with the late contest as party organizations. In the next election the old parties will come to the front, and the voters of those parties (who were denied, through the operation of several causes, the new constitution) will range themselves again with their respective parties, and the workingman's party, so called, will be left alone with their old adherents, who compose a class insufficient in number to carry an election of themselves. Thousands voted for the new constitution, because of the hope that something might come of it to curb the power of corporation monopolies, and fix the principal burden of taxation upon concentrated capital, never intending to embark in Socialism or identify themselves with Kearneyism. These have never left the national party organizations to which they belong, and when it comes to voting upon the question of placing the State government in the control of the Socialists, they will be found among the most earnest and energetic conservatives.

KING'S MOUNTAIN.

THE DEFEAT OF FERGUSON ONE HUNDRED YEARS AGO.

The First Steps in the Direction of a Celebration Taken by the People of the Village.

Charlotte Observer.

KING'S MOUNTAIN, May 24.—At a meeting of the citizens of King's Mountain and vicinity, on Saturday, May 24, to take initiatory steps toward the celebration of the centennial of the battle of King's Mountain, Dr. J. W. Tracy was called to the chair; I. W. Garrett and W. A. Mauney were appointed secretaries. The chairman having explained the object of the meeting, Capt. W. T. R. Bell moved the appointment of a committee of five to draft resolutions expressive of the sense of the meeting. Capt. W. T. R. Bell, Dr. B. F. Dixon, W. A. Mauney, P. S. Baker, and Dr. T. J. Walker were appointed. The committee presented the following resolutions which were adopted:

Resolved, That this meeting is heartily in favor of celebrating the centennial of the battle of King's Mountain.

Resolved, That we will co-operate in all measures tending to secure that object.

Resolved, That as an initiative step it is recommended that a public meeting be held in the town of King's Mountain, to which our fellow citizens of the surrounding counties, both in North and South Carolina be invited; that at said meeting it is recommended that a joint committee, composed equally of North and South Carolinians, be appointed to take in hand all correspondence and preliminary arrangements, and who shall constitute a standing committee for the purpose mentioned.

Resolved, That Friday, the 25th day of July, 1879, is hereby appointed for said meeting, and we hereby call upon the counties of Cleaveland, Gaston, Rutherford, Lincoln, Polk, Henderson and Mecklenburg, especially, in North Carolina, and York, Spartanburg, Union and Lancaster in South Carolina, to hold meetings, and send delegates to said meeting on the 25th of July.

Resolved, That the secretaries of this meeting be instructed to request Senators Z. B. Vance and M. C. Butler to be present and address the meeting; also that similar invitations be extended to other prominent gentlemen in North and South Carolina.

Resolved, That we cordially extend an invitation to all citizens of whatever county or State, who are friendly to the object in view to meet with us and participate in the proceedings of that meeting.

Resolved, That the papers in Shelby, Lincolnton, Charlotte, Rock Hill, Yorkville, Spartanburg, Columbia and Raleigh be requested to copy these resolutions.

The "Tupper Church" Imbroglio.

This most unfortunate church organization, better known among the colored people as the Second Baptist Church, has prominently made its appearance once more. There are so many conflicting stories in regard to the latest phase the trouble has assumed that it may be well enough to make a short statement of the affair.

Some few weeks since the Rev. Arthur Williams, formerly of Warrenton, immigrated from that village and made application to be installed in the vacant pastorship of the church. At a church meeting held to consider the matter it was resolved to take him for a month on trial, and if he "filled the bill" he would be engaged for a year, provided that he brought a dimit or letter showing that he was in good standing in the Warrenton church at the time of his leaving and that he was honorably free from all engagements. On the strength of this he continued his exhortations at the stated meetings, until a feeling of dissatisfaction arose, and a church meeting was called. At this meeting, according to the testimony given in court, there were thirty-five members present who voted to dismiss Williams from his temporary pastorship on the ground that the promised letter from the Warrenton congregation had not been furnished. This eventually led to a little scuffle between the minister and one of the deacons, which showed that Williams had the greatest amount of muscular christianity. Instructions were given by the trustees to the sexton not to allow Williams to occupy the pulpit again without orders, but the sexton failed in his duty, and the Rev. Mr. Williams gave his dissenting congregation "fits," taking his text from the fourteenth chapter of John (very definite, this bit of information.) He also instituted a suit Monday against the pugnacious deacon, and in return the trustees had him arrested on a charge of trespass, and the trial came off on Tuesday before Justice Barbee and a jury. All the wealth, beauty and fashion of the congregation were present, and the trials and troubles and tribulations of spirit that the church had experienced during Williams' ministrations were fully detailed. B. B. Lewis and Colonel Walter Clark appeared respectively for the prosecution and defense. It was a juicy affair: the witnesses got mixed, the attorneys more so, the jury couldn't unravel the tangle, and the spectators were unable to make head or tail of the evidence. The only one who appeared to have a clear head was the justice, and at times he seemed puzzled. The jury found all parties not guilty and recommended them to mercy; the suits were withdrawn; the deacon will not buck against the pillar of the church again; the minister will postpone his preaching; and if the reporter decides to ever again encounter the "blind staggers" he will do it on champagne cocktails instead of getting "scattered" on a colored church trial.

The Right Sort of Man.

The vicinity of Fort Belknap swarms with Sioux. A man named Lloyd, while camped twenty miles from the post, was attacked by fifteen warriors. He scooped out a rifle pit with his hands, and after a desperate fight of two hours' duration, in which three Indians were killed, the intrepid white man succeeded in driving off his assailants. Lloyd had but three cartridges left when the savages abandoned their attack.

ONE STEP TOO FAR.

The sharp rise in the New York money market, as noticed in Tuesday afternoon's quotations, appears to create some surprise among business men, and naturally they seek for a solution of the cause. On reviewing the financial movements of the past fortnight it is not hard to find, however, and equitably stated it is the result of a step taken by Secretary Sherman that, no matter how well intentioned, is one in advance of what the country needed. We refer to the issue of the $10 certificates, the remarkable sale of which is violently contracting the currency. The financial reports of the New York daily papers show that during the past week the banks of that city have lost $5,000,000 in legal tenders. The surplus reserve has again been reduced over $5,000,000, leaving but about one-fourth of a million over the reserve now required by law. In other words, one more week of such work would leave the New York banks without any reserve whatever, and thus place them in the same position as those of New Orleans were placed a few weeks ago.

As above stated, this is the result of a blunder on the part of the Secretary of the Treasury. The issue of these certificates was intended expressly for sale to the poorer class, by which means they could invest their savings with a greater degree of security than in rotten savings banks, and that the certificates should be confined exclusively to this class the sales to each were limited in amount. This safeguard amounted to nothing, for, as stated daily in the press, the applicants, clothed in rags, were but the agents of bankers and speculaters. Millions are drawn daily in this manner from the cities and villages of the land wherever they are sold, and from all these places there comes a sudden and unnatural demand for legal-tenders. This drain, unlike the ordinary outflow which is both caused and compensated by commercial movements, takes away currency to be employed in this systematic fraud until it gets locked up in the Treasury, and unless the greatest care is taken, the powerful contraction resulting from this unnatural and discreditable process will cause serious trouble.

This blunder on the part of Secretary Sherman should be rectified immediately by withdrawing the certificates altogether. He should know by this time that it is impossible to prevent wholesale disregard of the law and of his orders; and the futility of any attempt to prevent the organized capital of the country from absorbing the profits of these sales has been fully demonstrated. And another thing, as long as the certificates are worth over 3 per cent. more than the legal-tenders demanded for them the Government is robbing itself for the benefit of speculators and bankers.

We are disposed to credit Secretary Sherman with honest and benevolent motives in advocating and securing the issue of these certificates; but at the same time it would appear that he was endeavoring to score a point for popularity during the Presidential race, thus killing two birds with one stone. Should this appendage to his financial plan be still adhered to as forming a part of the whole, we apprehend that when the trouble breaks, as break it will, his popularity will take wings and vanish.

THE WARNER SILVER BILL.

This wise, just and important bill has been before the House of Representatives over a month. Every opportunity has been given to debate it and it should be passed without further delay and sent to the Senate. Of course it will meet with opposition in the Senate, but that body is largely Democratic, and it is to be hoped that the bill will pass the Senate without unnecessary delay and go to the President before the extra session ends.

The financial question is one of deepest interest to the people,and yet it is to be feared that the masses are less informed on this subject than on any other political topic. Especially is this the case in the South, where the struggle ever since the end of the war has been to maintain political existence. Our farmers have worked hard and they have reaped bountiful harvests; but year by year they have seen their products melt away, and they have grown poorer and poorer, the times harder and harder, but were not able to understand the cause of their ruin. Our object is to direct their attention to the real enemy that has done all this. We give in this issue a few other facts and figures for the people to reflect on.

The bill known as ther Warner silver bill, is intended to restore silver to its status as money before the act of 1873 which demonetized it, and to enable the Secretary of the Treasury to issue coin and bullion certificates, to recoin the trade dollar and give it a value and other like purposes. Section 3,511 of the Revised Statutes of the United States fixes the gold dollar as the unit of value. It was this law that destroyed the unit value of silver as money. The evil was not immediately felt, but as time wore on its visible result was seen. First, in the great cities, where business men of the highest character suddenly found themselves unable to meet their obligations, and were forced to close their houses and go into bankruptcy. From the cities to the towns, and then to the country merchants, and from them to the country, the farmers, the mechanic, the laborers, until like some deadly pestilence, sorrow and gloom settled all over the land.

In due course of time the few money kings, through the increased value of money, were able to buy what they were willing to give,and the wealth and prosperity of the Republic lay at their feet. "The country is filled with men dispossessed of their property, their earnings and their savings under the monetary legislation of the last ten years. Let these laws remain as they are, let the value of money continue at its present undue high price and in stead of the return of better times, we will see the great body of the people dispossessed of their property and barred from any share in future accumulations." Thus spoke General Warner of Ohio, a true Democrat and defender of the people.

The act demonetizing silver, as it was called, passed by the 43D in Congress, which accomplished good, fell short of reaching the desired end, as the Republican Senate destroyed many of its best provisions. By that law silver was not restored to its former place as money, its coinage was limited nor was it free as gold is.

Let us briefly consider some of the effects of this increase of the value of money, which is only by the act of 1873, gold. Here again we are indebted to Gen. Warner for statistics making silver equal in value to gold by increasing its metallic worth, and we do this that the argument may be simplified.

In 1873, 100 ounces of silver would buy six hundred and eighty-five pounds of cotton. In 1878, 100 ounces of silver will buy one thousand and eighty-seven pounds of cotton. (Of course we have no reference to the recent rise in cotton which we believe is fictitious.) Here we have a difference in the purchasing power of silver at a gold standard in six years of nearly 60 per cent. increase. And we arrive at the very unsatisfactory result that the producers of cotton in 1878, notwithstanding their increase of about a million of bales over the crop of 1873, lose one hundred and fourteen millions ounces of silver. By the same calculation, we find that the wheat producers of the United States lose upon the prices of 1873 on their crop of 1878, one hundred and seventy millions ounces of silver. "The value of the total corn crop of 1878 $420,000,000 was equivalent to 445,000,000 ounces of silver. The same crop at the price of corn in 1873 would be worth $560,000,000 which is equivalent to 560,000,000 ounces of silver, or 170,000,000 ounces more than its present value." We ask the farmers to read and ponder these facts and figures, that they may know how it was that in the last six years they have received nothing for their labor. Gen. Warner in his great speech has adopted many methods of reasoning to expose the great crime of the Republican party in 1873 against the people. Estimating a day's labor in 1878 on the average, it would require 190,000,000 days' labor to pay the expenses of the Government, which is estimated at $380,000,000. In 1878 after the Democrats got into power the expenses were reduced and were only $280,000,000. By the disastrous and disparaging effects of the financial legislation of the Republicans (still degrading the price of labor), at the present price of labor by the day, it requires to pay off the $280,000,000 of expenses in 1878, 262,000,000 days of labor. The taxes collected of the people to bear the expenses of the Government and pay the interest on the public debt and for other purposes in 1869 were $370,000,000. The days' labor equivalent to this sum at that time was 500,000,000 days labor; to raise the same amount of taxes now requires from the laborers 830,000,000 days' labor, or 330,000,000 days' work more at the present low price put upon the workingmen to raise the same amount. *Three hundred and thirty* millions of days' sweat and toil forced out of the labor portion of the land to swell the bags and coffers of the bond-holders.

Workingmen think of these things, and as you hear of the efforts now going on by the Democratic party in Congress, to give freedom to the ballot box, organize and be in readiness to strike with and for that party that carries your banner. That party is the great National Democratic party.

AMONG the questions which juvenile debating societies have discussed from time immemorial is, "Which is the the king of beasts—"the lion, the tiger or the elephant?" Inasmuch as the tests of relative royalty recorded are not numerous, there has been and is in the question that delightful opening for vague rhetoric which makes youthful debates improving and interminable. There is no reason for believing, however, that either the lion, the tiger nor the elephant is the king of beasts. A great deal of evidence has, we regret to say, been produced of late that the lion is an overrated humbug. He is a sort of Chinese warrior. He makes a great deal of noise, but has no real fondness for a stand-up fight. When forced to combat some months ago in San Antonio with a buffalo, he got terribly whaled. That the tiger is little if any better appears to be made out by recent travelers, and that the elephant is what the sporting men would call a regular duffer in the matter of warfare is proved beyond dispute. The latest light on this subject comes to us from Poughkeepsie. We are informed that in one of the neighboring villages a few weeks ago an elephant worth $10,000, owned by the showman Van Amburgh had a misunderstanding with a camel—the patient camel—and the result was a tearful time for the elephant. We quote from the dispatch: "The elephant was "badly punished, the camel catching "his trunk in his teeth and lacerating "it in a terrible manner. The camel "had to be choked with chains before "he would let go. The elephant cost "$10,000,and he is still suffering severely from his wounds. During the "fight the audience was panic stricken, and the roar of the elephant could "be heard a long distance." It will be noticed that the camel did not do any roaring, but he made a most telling use of his teeth. This incident, coupled with the other facts which we have adverted to, would seem to require the standing subject of debate to be hereafter: "Which is the king of beasts, "the buffalo or the camel?"

FOREIGN immigration is setting in again strongly. The arrivals at Castle Garden, New York, last week, were about 6,000 and the steamer agents say they have advices that the immigrants due this week will even exceed this large number. The new comers embrace all nationalities,but the Irish, English and Germans predominate. A larger proportion of English is looked for this summer than heretofore, owing to the widespread industrial distress there.

I concur with Bishop Dogget in his estimate of the Vest Pocket Cure.

Rev. Drs. Jeter, Broaddus, Dickinson, (Bap.)

It is endorsed by the direct personal testimony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Baptist Religious Herald, Va.

Chaplain Randolph Macon College, Va.

Many cases of Dyspepsia within my knowledge have been cured by it. Crams, Colics, Headaches and all sorts of pain from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney, L. L. Col., Va.

It is highly esteemed here by the regular Medical Faculty and the people. It is excellent for Indigestion and Flatulent Colic, sedative, soporific, tonic, slightly aperient, without nausea.

Rev. B. F. Woodward, P. E., Na. Con't.

About twelve years I suffered from Dyspepsia. Failing in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Va.

I have used the mixture in my family for years, and have taken it for dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For protection from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va.

It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines so far as I observed in my practice, for all the complaints in families from indigestion, I use it and recommend it.

Editor Richmond Christian Advocate.

This remedy is of great virtue. I have seen Dyspepsia cured completely by it. It seems to be an antidote to our "National Disease." The ingredients are not kept by the apothecaries, and have been difficult to get.

Price 2 cents per bottle. Sold by all druggists. In Raleigh, by Pescud, Lee & Co., and Williams & Haywood.

Talbott's Patent Spark Arrester,

THE INVENTION OF THE AGE.

Talbott's new Patent Spark Arrester is really the only perfect and reliable one, and is superseding all others in use. The great efficiency of this Arrester is attracting universal attention, and is being endorsed by the best mechanical engineers and insurance companies. Its prominent features are:

It does not destroy the draft.

It does not interfere with cleaning the tubes.

It will not choke up, and requires no cleaning.

It requires no direct dampers to be opened when raising steam (dampers being objectionable, as they may be left open and allow sparks to escape.)

It requires no water to extinguish sparks, which, by condensation, destroys the draft. Besides, when water is used, if neglected, the efficiency is destroyed by evaporation of the water, and the boiler is kept in a filthy condition.

It is simple and durable, and can be relied upon.

It can be attached to any boiler.

No planter should be without one of them. Insurance companies will insure gins and barns where the Talbott Engines and Spark Arresters are used at same rate as charged for water or horse-power.

DAILY NEWS

THURSDAY, - - - MAY 29, 1879.

JOHN SHERMAN'S MODEST BID.

He Puts Himself in the Field for the Presidential Race---His "Jacksonian" Platform.

New York Herald, May 23.

The following letter, addressed by Secretary Sherman to a prominent War Democrat, in this city, who was associated with Mr. Sherman in the XXXVth and XXXVIth Congresses, forms an interesting addition to the political history of the day:

TREASURY DEPARTMENT,
WASHINGTON, May 10, 1879.

Dear Sir: Your personal letter of the 6th is received. I assure you that, although very much hurried while I was in New York, I would have made an appointment of time and place to see you, but there was no address upon your card, and I did not know where to send you word.

The movement to start me as a candidate for Governor of Ohio was merely sensational, and while it would have been very heartily responded to in Ohio, and no doubt would be successful in the sense that I could be elected Governer, it would clearly be wrong for me to entertain it. So many persons are interested in the continued success of refunding and resumption that it would seem like the desertion of a public duty, and I would never be forgiven if any hindrance should occur in the way of either.

What I would aspire to in case public opinion should decide to make me a candidate for President would be to unite in co-operation with the Republican party all the National elements of the country that contributed to or aided in any way in the successful vindication of national authority during the war. I would do this, not for the purpose of irritating the South or oppressing them in any way, but to assert and maintain the supremacy of national authority to the full extent of all the powers conferred by the constitution. This I understand it, is the Jacksonian as well as the Republican view of national powers.

* * * * * * *

You see my general ideas would lead me to lean greatly upon the War Democrats and soldiers in the service who have been influenced by political events since the war to withhold support from the Republican party.

The true issue for 1880 is national supremacy in national matters, honest money and an honest dollar.

Very truly yours,
JOHN SHERMAN.

Confidence in Roscoe's Greatness.

Pittsburg Dispatch.

Senator Conkling has had honors heaped thick upon him, but he will doubtless admit that the highest compliment ever given him is that just tendered by Mrs. Bruce, wife of the colored senator. It is her first, and she has named it Roscoe Conkling Bruce. In these times, when it is decidedly risky to name children for alleged great men, such a mark of sublime confidence will be appreciated.

A Question of Maternity.

Baltimore Gazette.

Congressman Ben Butterworth has been telling the country that the Grant movement is born of the people and not of the politicians. It is quite evident that Mr. Butterworth is the victim of an accouchement fraud. It is not the first time, however, that the nativity of a questionable child has been successfully saddled upon the wrong person.

LIVER

This important organ weighs but about three pounds, and all the blood in a living person about three gallons passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

NOW READY FOR DELIVERY!

The Digest of Cited Cases

IN THE

North Carolina Reports.

By Hon. A. W. Tourgee.

We are happy to announce to the legal profession that this valuable work is now ready for delivery to subscribers. The labor of preparation and the necessity of securing the utmost possible accuracy in the immense number of citations, has necessarily delayed the work, but the result cannot but be satisfactory to every practioner. It contains every case in the reports of the State which has been cited by the Court, the cases in which cited, whether with approval or disapproval, with a careful digest of the point of citation, with a full and accurate index to the subject matter of each. In form, matter, completeness and style of publication, it is unfoubtedly the best law book ever published in the State containing 750 large double-column pages, 5,162 cited cases and about 30,000 citations.

It will be mailed to subscribers on receipt of the price $12 with 25 cents for postage, or sent by Express C. O. D. when there is an office convenient. Persons desiring to have the work should order at once, as the edition is a limited one.

LOCAL BRIEFS.

——Straw hats are increasing in number.

——Croquet will not be popular among the fashionable this year.

——Benedict, Holler & Co., of New York city paid their little $100 and took out a drummers' license for this State.

——Sheriff D. Spruell, of Washington county, brought up a convict for the Penitentiary.

——Seaton Gales Lodge meets tonight—"work on hand," also important business to be transacted. All Odd Fellows are requested to be present.

——We learn on good authority that Milton S. Littlefield has been arrested in Florida on a requisition from Governor Jarvis and is now on his way to this city.

——A fashionable chapeau, much affected by youths of stylish tendencies, resembles a stovepipe hat cut short, as if the man who made it was too lazy to finish the job.

——Dull in the Treasury office yesterday, no bonds came in—plenty of letters about bonds were received though. The engraving of the new bonds, still hangs fire.

——There were 162 persons converted to God at Edenton St., 65 have joined the church; and 82 were converted at Person St., and 31 were added to the church. Others will join soon.

——Mr. Rosenbaum's handsome store on the corner of Fayetteville and Morgan streets is often visited by the ladies of this city. Low prices and reliable goods are appreciated more than anything else about these times.

——The 30th of May will be observed as usual by the ex-Federal soldiers present in the city. The decoration will be quietly performed. The citizens of Raleigh are respectfully invited to participate.

——A well defined rumor prevails that one of Winston's young merchants will take away one of our fair daughters this afternoon at 5:30 o'clock. Permission to be granted by Rev. W. S. Black, at Edenton Street Church, if we mistake not.

——Messrs. Latta & Myatt put in their store yesterday a large new safe, their old one proving altogether too small for their business. The operation of getting it off the truck and into the store required the energies of half a dozen men, independent of the heroic efforts put forth by a dozen "outside bosses" who furnished all the suggestions that were not acted on and wiped the perspiration from their brows as soon as the job was done. The safe weighs 3,100 pounds.

Married.

At Forestville, May 28th, by Professor Royall, Mr. Ed. Allen and Miss Fannie Dunn. No cards.

Mr. Allen is the operator and agent at Forestville, and has many friends in this city, who wish him all manner of good fortune.

Pleasures.

To the man who who writes, nothing gives more pleasure than a good gold pen, easy flowing ink and first class paper. The finest assortment of gold pens and the largest stock of plain and fancy stationery in the city can be seen at the bookstore of Alfred Williams & Co., Raleigh. First class legal cap is one of their specialties.

Election of Officers.

At the convocation of Enoch Council No. 5, Royal and Select Masters, held on the 27th inst., the following officers were elected: John Nichols, G. I. M., M. Grausman, D. I. M., J. M. Rosenbaum, P. C. of W., R. H. Bradley, Treasurer, Wm. P. Wetherell, Recorder, W. J. Hicks, C. of the Guard, Wayne Allcott, C. of the Council, J. C. L. Harris, Steward, Miles Goodwin, Sentinel.

More About the School Bill.

On the 27th inst. a mandamus was sued out by the State on relation of Thomas S. Kenan, Esq., Attorney General, J. C. Scarboro, Esq., Superintendent of Public Instruction, against J. L. Robinson, Esq., President of the Senate, and John M. Moring, Speaker of the House.

Mr. Moring was in the city yesterday and the writ was served on him. He promptly accepted service. A summons has been sent to Mr. Robinson, who resides in Macon county. The mandamus is made returnable before Judge Eure in Raleigh on June 12th, prox. Messrs. Lewis & Strong, Col. Walter Clark and W. H. Pace, Esqs., have been retained by the plaintiff. The object of the action is to compel the Speaker to sign the school bill as passed by the late legislature. The case is a very important one and the argument will be conducted by very able counsel. Much interest is taken in the matter by the people of this State and its final disposition will be looked for attentively.

Personal.

Mrs. Governor Jarvis has returned from a very pleasant sojourn among relatives in Goochland county, Virginia.

Senator Brower, of Yadkin, is in the city. He is here in the interest of the western end of the Cape Fear and Yadkin Valley. He thinks the road will go by Winston.

Col. J. S. Baker is one of the most entertaining gentleman in conversation we have met in many a day. He added much to the pleasure of a party of our witty merchants on Martin street last evening, while they were enjoying the grateful influence of the sun bath.

Mr. J. L. Stone, general agent for the New Home Sewing Machine, has returned from the North and will in a few days move to his new quarters on Fayetteville street, opposite Tucker's Hall and will keep in stock a full line of sewing machines, organs, best sewing machine thread, etc.

Alex. B. Stronach's Poland goose fainted the other evening from the effects of the lightning that struck his kitchen. That was the amount of damages.—*Evening Visitor.*

Mr. Stronach notes three very important errors in this statement. First, he has no "Poland goose." Second, his "kitchen" never was "struck by lightning." Third, no such occurrence ever took place.

Mr. F. Levy has returned from New York. He will open a laundry, which will be operation within the next two weeks. Shirts, collars and cuffs will be done up in style the same as new.

The Rich California Banker.

When it had become known that one of the richest California bankers had left the Pacific Coast and transferred his base of operations to the New York Stock Exchange all the shrewd financiers watched his course with keen interest to see how he would succed. The result has emphatically proved the wealthy banker's sagacity. Besides having a much wider and more promising field to operate in, he is known to have been in several stock combinations that paid immense profits. By the combination method of operating in stocks Messrs. Lawrence & Co., Bankers, N. Y., unite orders of thousands of customers, in different sums, into one vast capital, and operate them as a mighty whole, dividing profits *pro rata* among shareholders every 30 days. Capital in any amount from $10 to $100,000 can be used with great success in these pools. $25 would pay $100 profit. $500 would make $5,000 or 10 per cent. on the stock during the month. Messrs. Lawrence & Co.'s new circular (mailed free) gives "two unerring rules for success," and full particulars, so that any one can operate in stocks, and make money. Stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. *

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means for enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worried out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and Liver Complaint is the direct cause of seventy-five per cent of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents. Try it.

Triumphantly.

Dr. Price's Special Flavoring Extracts have stood the test of science and practical use triumphantly, and now are taking precedence over all others. They are justly entitled to the reputation they have acquired, for their strength, purity and delicacy of flavor.

The New Stock Speculation

The new combination method of operating in stocks which Messrs. Lawrence & Co., Bankers, N. Y., have inaugurated, is attracting much attention in financial circles, by reason of its remarkable success. A customer in Providence, invested nine times, and made over $5,000 in three months, by using from $50 to $500 capital. By this system, orders from thousands of customers, in various sums, are pooled into one immense capital, and operated as a mighty whole, thus giving to each shareholder all the advantages of vast capital and shrewdest skill. Profits are divided every thirty days. Any amount from $10 to $75,000 can be used in Messrs. Lawrence & Co.'s combinations with equal proportionate success. $15 will make $75 profit in the month. $200 will return $1,600, or 8 per cent. on the stock, and so as the market varies. The new circular gives "two unerring rules for success," and shows how any one can operate profitably. Mailed free. Stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y.

The Celbrated Seven Springs Iron Alum Mass.

This is decidedly the most useful, besides being the most efficient Family Medicine ever placed within the reach of any people. Its reputation extends far and wide, and its great popularity is due entirely to its own merits. For relieving Sick and Nervous Headache, it may be truly said, to have no equal. Dyspeptics find it just the remedy for their troubles. Mothers and daughters have long since discovered in its use a "panacea" for their worst ills; and now we have the testimonies of two eminent ministers of the gospel, from Southern cities, setting forth its specific effects in other more dreaded and troublesome diseases.

Rev. John F. Mayne, Theological Seminary, Columbia, S. C., writes: "Am afflicted with that terrible disease, 'Diabetes;' am using the 'Seven Springs Mass' with a considerable degree of relief; is the only remedy I have yet found to suit my case; want to continue its use until a cure is effected if possible. Send worth of the enclosed P. O. order immediately.

JNO. F. MAYNE.

Columbia, S. C., Jan. 23d, 1879.

Rev. J. D. Parker, of New Orleans, La., writes: "Having tried effectually the 'Seven Springs Iron and Alum Mass,' for Diarhea, Kidney affliction, &c., I take pleasure in recommending its use in these complaints. In my case it affords immediate relief.

The Connecticut Mutual Life Insurance Company.

Steadily pursues its course. It affords its members, by the old time maxims of economy, integrity and prudence, insurance at the lowest cost. It offers to all who want to protect their dependents a policy whose claim by death will be honored, or at whose lapse, for any reason, a stipulated paid up policy can be obtained. In thirty-two years this company has disbursed the enormous sum of over thirty-two millions in death losses and endowments throughout the country. It does not seek patronage by specious plans. Experience has shown that the most advantageous forms of policies are life—by annual or limited premiums; and long term endowments. Please send or call for its full statement, with table of rates, etc. S. D. Wait, general agent, four doors South of the "Yarboro House." *

BOOTS, SHOES AND HATS,

in great variety. Boydens hand made Gaiters for Gentlemen all styles both high and low cut with box toe and without box, Beautiful French toes. J. S. Turner's hand made gaiters for Gentlemen high cut with and without box.

Heiser's hand-made gaiters for gentlemen's wear. T. Miles & Son's ladies' shoes, morocco and cloth. Miles' ladies' kid button boots. Miles' ladies' kid Newport Ties, which are beautiful.

In addition to these, I keep a full line of all qualities and prices of low price shoes for gentlemen and ladies, and a nice line of

Misses' and Childrens' Shoes.

I have a fine line of childrens' white no-heel button shoes.

My Clothing Department is very attractive, and prices more attractive.

I am also agent for Devlin & Co., the leading custom-made clothiers of N. Y. measures taken and suits made to order Don't forget the famous Boyden Gaiter for gents in all styles, and my Clothing Department up stairs. Agent Frank Leslie cut paper patterns. Catalogne Free. Very Respectfully,

J. P. GULLEY.

Unheard of Bargains!

Who tries his best to please his friends
And in his labors never ends,
Bargains he'll give you when you call
For No. 10 is all and all.
Of other houses you hear them talk;
In Fayetteville street just take a walk
And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades,
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adorn your forms and faces;
Picture frames and mouldings too
In great variety, black, brown and blue,
His window cornices and lambrequins fine,
Will make your rooms and parlor shine.
Perforated mottoes, and white holly baskets,
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids you all adieu
And wishes a happy new year too,
And not forget
